

Arkansas Welding Academy Gainful Employment Disclosures – 2019

Master Pipe and Structural Welding Program

This program is designed to be completed in 6 months.

This program will cost \$21910.00 if completed within normal time. There may be additional costs for living expenses. These costs were accurate at the time of posting but may have changed.

Of the students who completed this program within normal time, the typical graduate leaves with \$1809.37 of debt.

{Select one or more of the following statements. Your institution is required to provide information about whether this program meets licensure requirements for any states in the metropolitan statistical area (MSA) in which the institution is located, as well as for any states for which the institution is aware of whether the program satisfies all educational prerequisites to qualify a student for licensure. Select one or more of the options and the names of the states for which that statement applies.}

- 1) **Program meets licensure requirements in the following States: Arkansas**
- 2) **Program qualifies students to sit for licensure exam in the following States:**

Please Note the following: Some states have licensing requirements for welders in addition to certification. For example, New York requires welders to be certified by the AWS or the N.Y. State Department of Transportation. They then must apply to the state for a license. Some cities have their own certification and licensing processes in order for welders to be employed by the governmental entity. One such city is Los Angeles. Although it has its own testing procedure for certifying and licensing someone to become an L.A. City Certified Welder, applicants are required to bring the applicable codebook published by the AWS to the city's certification exam. Welders who want to work for a local, state or federal government project need to check with their employer, or anticipated employer, for specific welding certification or licensing requirements.

- 3) **Several States do not have licensure requirements for this profession though most employers do have licensure requirements.**

Please Note:

This program has passed standards established by the U.S. Department of Education. The Department based these standards on the amounts students borrow for enrollment in this program and their reported earnings. If in the future the program does not pass the standards, students who are then enrolled may not be able to use federal student grants or loans to pay for the program, and may have to find other ways, such as private loans, to pay for the program.
